

## Monster Energy British Grand Prix MotoGP 2021

### TRAFFIC MANAGEMENT INFORMATION FOR OUR LOCAL COMMUNITY

Thank you in advance for your co-operation over the weekend of the MONSTER ENERGY MOTOGP BRITISH GRAND PRIX 2021, 27 – 29 August. Here are the details of the local traffic system that is being implemented for this event. We hope this information will enable you to plan any journeys you may need to make during the event and minimise disruption to you and your family.

It is not our intention to run a one-way system on the A43 on Friday or Saturday although the option remains to be used in extreme situations as a contingency. The only one-way system planned for Friday and Saturday relate to the Dadford Road and details are listed below. Refuse collections and bus services will be unaffected. If circumstances change and we are forced to turn a one-way system on for the A43 on Friday or Saturday the details will be posted on [www.silverstone.co.uk/residents](http://www.silverstone.co.uk/residents) and local village Facebook groups.

The maps below show the traffic movement in and out of the circuit and although during these times the roads will be busier than normal, emergency services’ access to businesses and residential properties will remain the same as non-event days.

Please be careful, once inbound traffic flows dictate, the one way systems will be taken off and there may be a short period of time where the roads are in their normal configuration prior to being changed for the outbound phase. Please heed traffic signage and Stewards’ instructions where necessary.

The timings for the implementation of the traffic management scheme are detailed below.
